

**WHATEVER YOU WANT**  
(Stéphane LEBOURG)

You feel pity for our crazy lullabies, but you look at us with a jealous eye  
Do what you want, but even if you try, you'll never make us feel shy  
You talk to my friends and try to divide,  
but as you can see they're still on my side  
You try to soil us, where is your pride,  
there has been a turn of the tide

REF. : Whatever you want, and whatever you do  
We have to go on without you  
Whatever it takes, man, to make you understand  
We've got nothing else to do with you

We've come along way, you never knew how,  
I know it doesn't mean nothing to you now  
Stop talking bullshits  
You've find your tongue, you'd better bite your lips  
And we know what it's all about  
There is not the shadow of a doubt  
That's clear, anyhow, you know why  
You won't see us till pigs can fly
