

**MY EDUCATION**  
(Séphane LEBOURG)

Did you make things as your father did  
Did you obey to anything he said  
Was he for you a model, indeed  
As you try to be with your kid today

For as far as I can remember as a kid  
My parents they never locked the door  
They always gave me ev'rything I needed  
Even if I wanted more

Oh my education  
What i think and what I've done  
Go on your way, go on  
But you never know

Have you ever heard of mary, yes, indeed  
In the past, beautiful things she made  
For as far as I can remember as a kid  
The diiference's between shadow and shade

I can see this place in my memories  
White houses, and they're all the same  
A young-old woman and her tiny little baby  
Children playing in the mud a simple game
