

**« Snake in the grass » (Frاندول)**

I use to believe your lies, now I know I was wrong  
'cause now I realize, you've got a vicious tong

You're just a snake in the grass  
You're just a snake in the grass

You got to know is no use, trying to coil around my legs  
'cause I've seen in your mouth, two pretty dangerous poison fangs

You're just a snake in the grass  
You're just a snake in the grass

Now you shed your skin  
And I see who you really are  
Nothing but a creep  
Don't try to crawl to me anymore

Stop hissing in my ears, I'm a deaf mongoose  
Stop hissing in my ears, I'm a deaf mongoose

You're just a snake in the grass  
You're just a snake in the grass

a snake in the grass  
a snake in the grass  
a snake in the grass  
a snake in the grass....
